Cypress
is the **best**
rehab software
solution!

Cypress Web Microsoft Smart Client											Advancements in Technology	
(Other Rehab Software)												
✓		✓					✓	✓	✓			ASP / Web
	✓		✓	✓	✓	✓						Client / Server Application with SQL Replication
✓	✓	✓									Client / Server Application Hosted via Terminal Services or Citrix	

Cypress Web has the Rehab Outcomes Measure, the industry's only multidisciplinary outcomes rating tool. The ROM enables your therapists to quickly and easily demonstrate the value of their services to physicians, family members, referral sources and case managers. Cypress Web also allows you to compare your outcomes to industry averages outside your organization.

Let's get together and talk about how you can run your business and see if Cypress is a fit for you.
